

Each person’s rate is based on the person's age on the effective date of coverage. County rating is based on the contract holder's physical address.

Family coverage: Children enrolled with a parent can be covered up to age 30. Disabled dependent children may be able to stay on a parent’s policy after age 30. BCBSAZ determines a family’s rate by combining the age rate for each parent and the rates for up to the three oldest children under the age of 21. Children who are age 21 or older and included on the policy, are not included in the limit of 3 dependents and their rate will be added to the combined family rates.

Rates shown in this chart are for individuals who do not use tobacco. BCBSAZ applies an extra charge for tobacco use. To determine the tobacco surcharge, BCBSAZ will multiply each tobacco user’s rate by a factor that varies by age: 2.5% for ages 18-34, 5% for ages 35-44, 7.5% for ages 45-54, and 10% for ages 55 and older. This surcharge will be added to the rate shown on the chart. SimpleHealth is available only to individuals who are under age 30 on the date coverage starts, or who receive an exemption from the individual mandate through the Health Insurance Marketplace.

Each person's rate is based on the person's age on the effective date of coverage. County rating is based on the contract holder's physical address.

Family coverage: Children enrolled with a parent can be covered up to age 30. Disabled dependent children may be able to stay on a parent's policy after age 30. BCBSAZ determines a family's rate by combining the age rate for each parent and the rates for up to the three oldest children under the age of 21. Children who are age 21 or older and included on the policy, are not included in the limit of 3 dependents and their rate will be added to the combined family rates.

Rates shown in this chart are for individuals who do not use tobacco. BCBSAZ applies an extra charge for tobacco use. To determine the tobacco surcharge, BCBSAZ will multiply each tobacco user’s rate by a factor that varies by age: 2.5% for ages 18-34, 5% for ages 35-44, 7.5% for ages 45-54, and 10% for ages 55 and older. This surcharge will be added to the rate shown on the chart. SimpleHealth is available only to individuals who are under age 30 on the date coverage starts, or who receive an exemption from the individual mandate through the Health Insurance Marketplace.

Each person's rate is based on the person's age on the effective date of coverage. County rating is based on the contract holder's physical address.

Family coverage: Children enrolled with a parent can be covered up to age 30. Disabled dependent children may be able to stay on a parent's policy after age 30. BCBSAZ determines a family's rate by combining the age rate for each parent and the rates for up to the three oldest children under the age of 21. Children who are age 21 or older and included on the policy, are not included in the limit of 3 dependents and their rate will be added to the combined family rates.
